# Our Technology Partners

*Intune has partnered with industry-leading firms to provide you with the best products and service.*

*We offer outstanding product quality, choice and technical support, all backed by manufacturers' warranties. And our in-depth knowledge of these products means you get exactly the system you need..*

we are proud of our brands and to partner with some of the worlds leading smart home automation manufacturers to offer our customers some of the best quality products at the most affordable prices

## CAMERA SOLUTIONS

Smart security here, there, everywhere.  
Security outside. Peace of mind inside.  
Help add protection anywhere you need  
it with motion-activated cameras from  
Intune.

## RING SPOTLIGHT CAM PRO BATTERY WITH BUILT-IN RADAR DETECTION

### KEY FEATURES

- Two-Way Talk with Audio+
- Security Siren
- 3D Motion Detection & Bird's Eye View
- 1080p HD Video & Colour Night Vision
- 2 LED Spotlights
- Dual-Band Wifi
- Quick Release Battery Pack

### AVAILABLE IN

- Battery
- Battery + Solar
- Plug-in
- Wired

## STICK UP CAM PRO COMES WITH BUILT-IN RADAR DETECTION

### KEY FEATURES

- 1080p HD Video & Colour Night Vision
- 3D Motion Detection with Bird's Eye View

## SOLAR PANEL FOR CAMERAS

#### AVAILABLE IN

- 8MP
- 6MP
- 4MP

## DAHUA WIZSENSE AI CAMERA WITH SMD 4.0

#### KEY FEATURES

- High-Resolution Imaging: 8MP CMOS sensor for excellent low-light performance and high-definition images at 25/30 fps.
- Efficient Compression: H.265 codec for high compression rates and ultra-low bit rates, maximizing bandwidth and storage utilization.
- Night Vision: Built-in IR LED with a maximum distance of 30 meters for clear surveillance in low-light conditions.
- Flexible Coding: ROI, SMART H.264+/H.265+, and AI H.264/H.265 for adaptive coding based on bandwidth and storage needs.
- Advanced Features: Rotation mode, WDR, 3D NR, HLC, BLC, and digital watermarking for versatile monitoring in various scenarios.
- Intelligent Detection: Intrusion, tripwire, and accurate detection of vehicles and humans for enhanced security.
- Abnormality Detection: Motion detection, privacy masking, audio detection, and alerts for SD card status, network issues, and more.
- Storage Options: Supports up to 256 GB Micro SD card, with built-in microphone for audio recording.
- Easy Installation: 12 VDC/PoE power supply for convenient installation, and IP67 protection for durability.
- SMD 4.0 AI: Upgraded AI capabilities filter out irrelevant objects, detect clothing and vehicle color information, and prevent false alarms.

FULLY CUSTOMIZABLE COMPLETE SOLUTION BY INTUNE

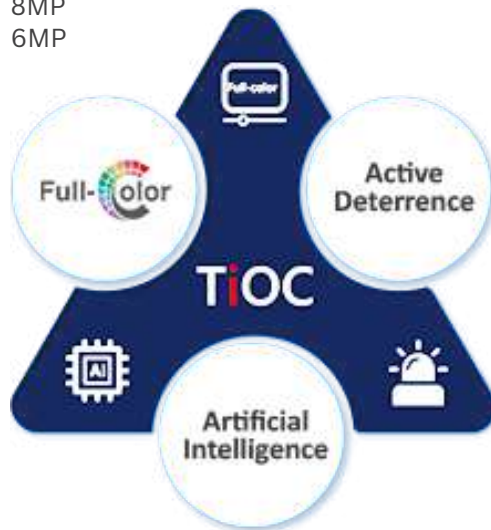

## DAHUA COLOUR NIGHT VISION TIOC SMD AI DETERRANCE CAMERA

### KEY FEATURES

- 8 Megapixel cameras | TiOC 2.0 Full Color | Built-in Mic & Speaker | 2.8mm fixed lens | Smart Motion Detection 3.0
- Dahua Deterrence Full color Starlight IP Turret Fixed 2.8mm, 8MP, Built-in Mic & Speaker, WDR, Micro SD, IP67, POE
- Localised camera footage storage capability: up to 256 GB MicroSD Card storage
- High clarity Starlight Technology: Built-in warm light and IR LED: IR illumination distance is 30m and warm light distance is 30 m. – (3840×2160)@25/30 fps | PoE
- Smart Motion Detection (SMD Plus) – detects humans and vehicles with high accuracy, reducing false alarms.
- Intelligent Detection & Perimeter Protection – Intelligent monitoring includes Intrusion, tripwire (the two function support the classification and accurate detection of vehicle and human).
- Sound and light alarm with built in mic and speakers – flashes red and blue lights.
- Now with smart Dual Illuminators. The TIOC 2.0 camera can monitor at night with infrared and when motion is detected activate its auxiliary illuminator light for full Colour recording. – This camera has BOTH ILLUMINATOR AND INFRA RED!

## HILOOK TURRET CAMERAS

### KEY FEATURES

- 8MP turret camera with versatile output options.
- 1/2.5" Progressive Scan CMOS for high-quality imaging.
- Excellent low-light performance: Color sensitivity of 0.028 lux @(F2.0, AGC ON), 0 lux with IR.
- Advanced video analytics: VCA functions, 3 streams, 3D DNR, BLC/HLC.
- IR Cut Filter (ICR) and EXIR technology for up to 30m night vision.
- Dual power options: DC12V and Power over Ethernet (PoE)..
- Seamless remote monitoring with HIK-Connect cloud service.
- Robust weatherproof design with IP66 protection.

### AVAILABLE IN

- 8MP
- 6MP
- 4MP

## HIKVISION 8MP 4K SMART HYBRID LIGHT COLORVU TURRET CAMERA

With the integration of cutting-edge AcuSense technology, Hikvision help users focus only on events that matter to security. Empowered by deep learning algorithms, ColorVu Gen 2 cameras can also distinguish people and vehicles from other moving objects such as rain, leaves and animals which vastly improves search efficiency as footage can be sorted by human and vehicle categories.

- High quality imaging with 8 MP resolution
- Smart Hybrid Light: advanced technology with long range
- Clear imaging against strong back light due to 130 dB WDR technology
- Efficient H.265+ compression technology
- Focus on human and vehicle classification based on deep learning
- -U: Built-in microphone for real-time audio security
- Water and dust resistant (IP67)

## HIKVISION VILLA MODULER INTERCOM KIT

### KEY FEATURES

- 2 MP HD video intercom function
- Access control function
- Noise suppression and echo cancellation
- H.264 video compression
- Low illumination
- Tampering alarm
- Fisheye camera with IR supplement light
- Supports sub-modules' access (max. 8)
- Nametag customization
- Easy to and extend
- Keypad - Door Station
- Supports unlock the door via entering password
- Supports call the resident via entering room No.
- Backlight compensation
- Easy to and extend

## HIKVISION INTERCOM KITS

- 4-wire plug & play analog door station
- 2 MP Pinhole camera with self-adaptive IR supplement
- One-touch calling design for easier calls
- Supports two door stations simultaneously in the intercom system
- Convenient installation and easy operation
- Anti-oxidant aluminium alloy
- 4-wire analog indoor station
- 7-inch TFT screen with 800 × 480 resolution
- Physical buttons design for easier operation
- Supports three indoor stations cascading in the intercom system
- Supports remote unlocking, monitoring door station and external analog camera

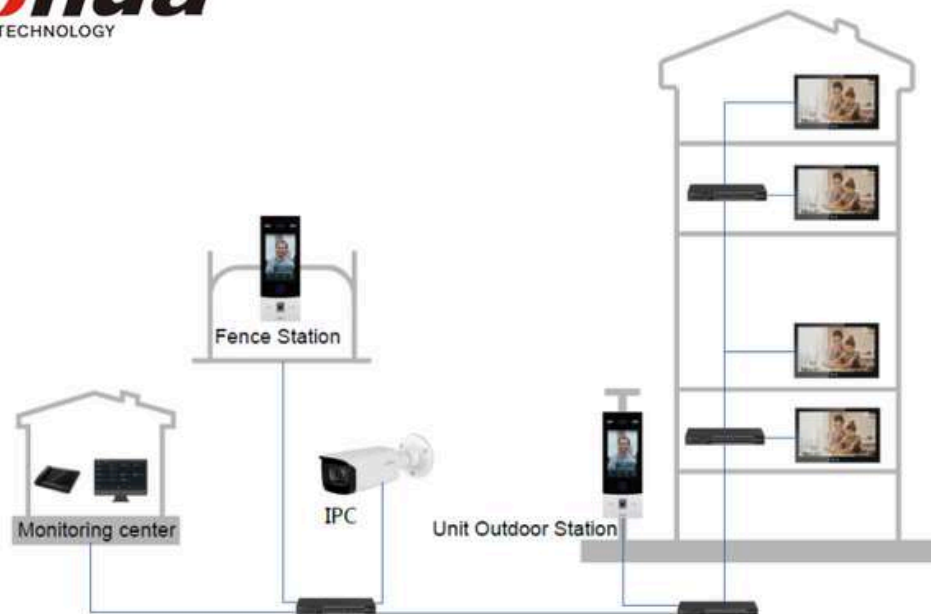

- Two-Wire Indoor Station
- Receives Video Call And Unlocks On Mobile App Anywhere, Anytime
- 7 inch Touch-Screen, User Friendly Interface, Plug & Play
- Easy, Cost-Efficient Installation
- Villa Door Station:
- High quality imaging with 2 MP resolution
- Easy, Cost-Efficient Installation
- User Friendly Design, Name tag, Communication status LED indicator
- IP65 water resistant, preventing water ingress for outdoor use

- Indoor station:
- 7-inch touch screen, user friendly interface, Plug & Play
- Easy, cost-efficient installation, Wifi & POE Supported
- Receives video call and unlocks on mobile App anywhere, any time
- Supports live view of up to 16 IP cameras
- Door station:
- High quality imaging with 2MP resolution
- Easy, cost-efficient installation, Wifi & POE Supported
- Easy configuration through WEB interface
- IP65 water resistant, preventing water ingress for outdoor use

# 10" ANDROID DISPLAY

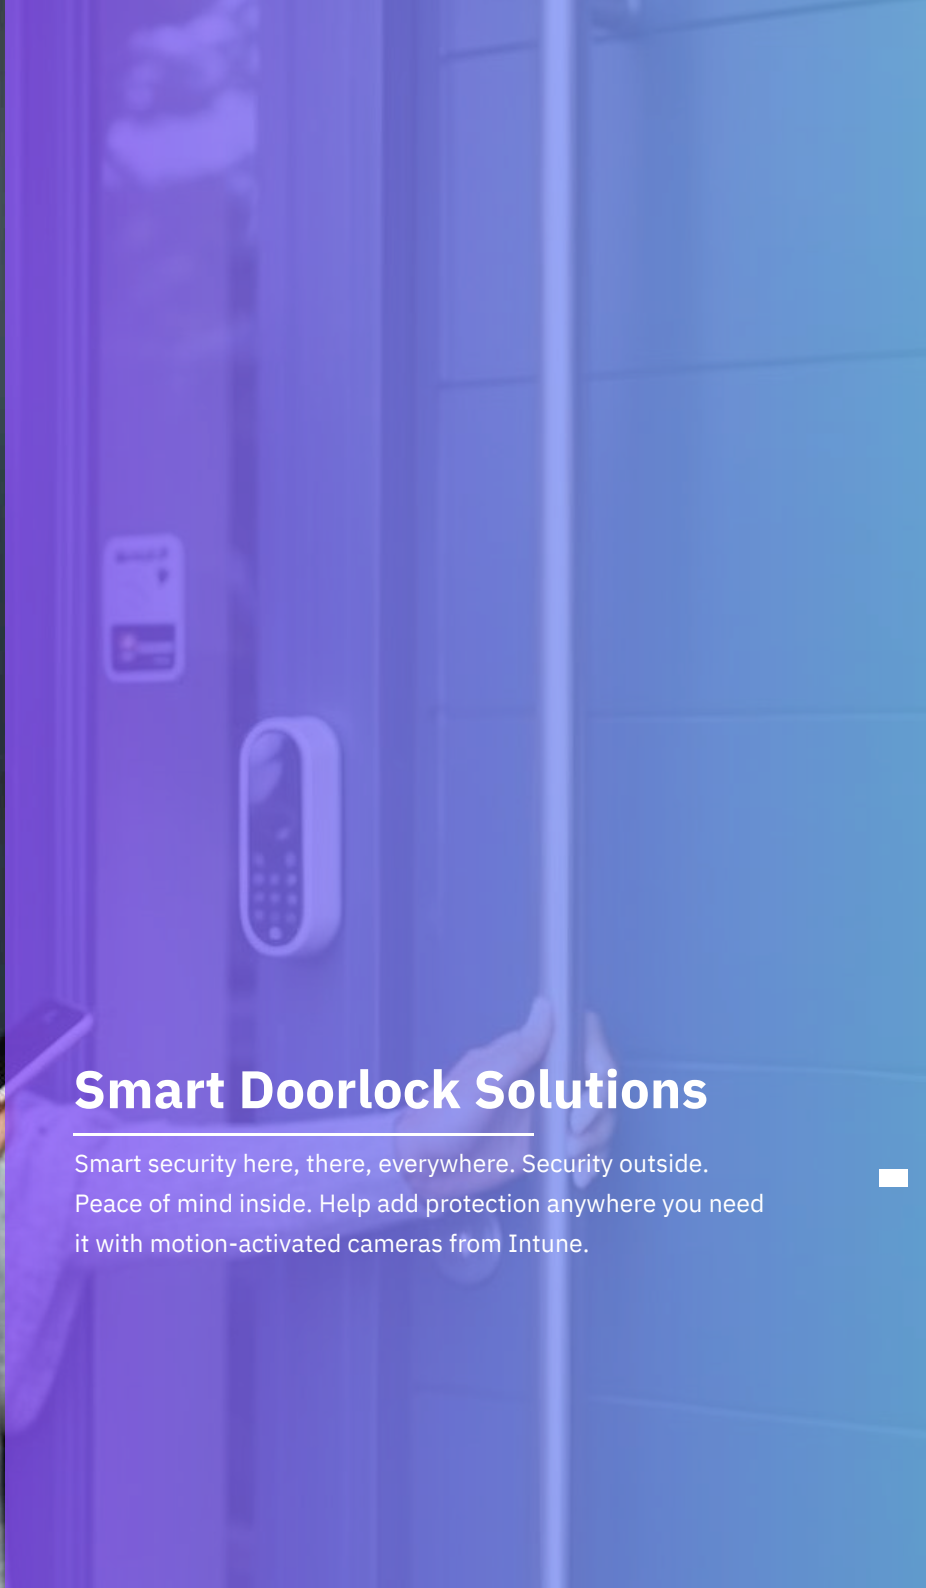

- Android 8.1
- More User-Friendly UI
- Ethernet and Wi-Fi
- 10" TFT Capacitive touch Screen, 1024×600
- Micro-SD Card optional, max 256GB

# MODEL F1

Make access smart, simple & safe

## Parameter:

Material: Manganese steel

Plate Size: L370×W75mm

Unlock Way: App, Password, Fingerprint, NFC, Card or Key App Name:

Tuya App

Support System: IOS7.0 or Android 4.4 or above

Power Supply: 8pcs AA alkaline batteries

Mortise: 6068 Anti-theft mortise

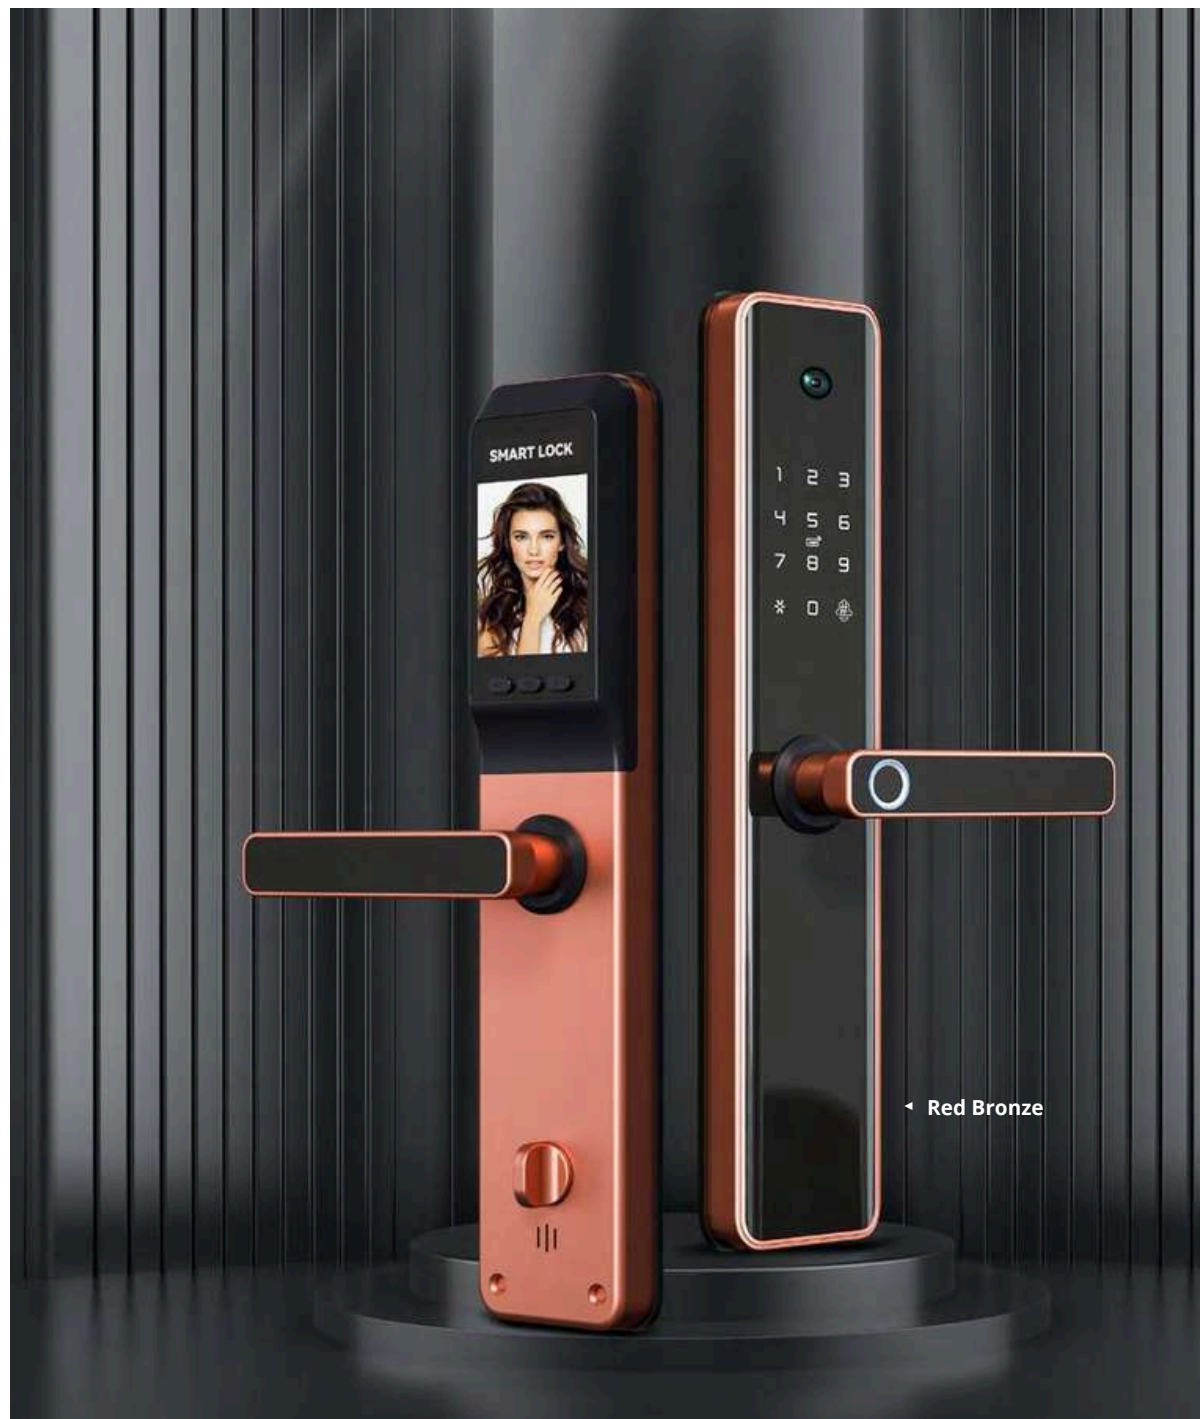

Color: Black / Red Bronze

Working Temperature: -25~60 degree

Apply Door Thickness: 40~90mm

USB Back Up Power: Yes

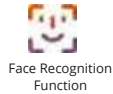

Applicable For: Wooden or Metal door

## MODEL F2

Make access smart, simple & safe

### Parameter:

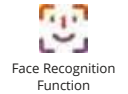

Material:	Aluminum alloy
Plate Size:	L430×W70mm
Unlock Way:	App, Face Recognition, Password, Fingerprint, NFC, Card or Key
App Name:	Tuya App
Support System:	IOS7.0 or Android 4.4 or above
Power Supply:	4200mAh lithium battery
Mortise:	6068 Anti-theft lock body
Color:	Gray
Working Temperature:	-10~60 degree
Apply Door Thickness:	40~90mm
USB Back Up Power:	Yes
Applicable For:	Wooden or Metal door

Gray

## MODEL F3

Make access smart, simple & safe

### Parameter:

Material:	Aluminum alloy
Plate Size:	L430×W60mm
Unlock Way:	App, Face Recognition, Password, Fingerprint, NFC, Card or Key
App Name:	Tuya App
Support System:	IOS7.0 or Android 4.4 or above
Power Supply:	4200mAh lithium battery
Mortise:	6068 Anti-theft lock body
Color:	Black
Working Temperature:	-10~60 degree
Apply Door Thickness:	40~90mm
USB Back Up Power:	Yes
Applicable For:	Wooden or Metal door

Black

# MODEL F7

Make access smart, simple & safe

## Parameter:

Material:	Aluminum alloy + Curved tempered glass
Plate Size:	L370×W75mm
Unlock Way:	App, Password, Fingerprint, NFC, Card or Key
App Name:	Tuya App
Support System:	IOS7.0 or Android 4.4 or above
Power Supply:	8pcs AA alkaline batteries
Mortise:	6085/ 6068 Anti-theft mortise / 7098 Electronic mortise
Color:	Black
Working Temperature:	-25~60 degree
Apply Door Thickness:	40~80mm
USB Back Up Power:	Yes
Applicable For:	Wooden or Metal door

# REAL-TIME INTERCOM

Automatic Camera Smart Door Lock

## MODEL F4

- Material: Aluminum alloy
- Unlock Ways: APP, Password, Fingerprint, NFC, Card or Key
- Mortise: 6068 Electronic mortise
- Plate Size: L372.6×W74mm
- Color: Black / Silver / Red Bronzed
- Power Supply: 8pcs AA alkaline batteries
- USB Charging Port: Yes
- Door Thickness: 35~100mm

## MODEL F6

- Material: Aluminum alloy
- Unlock Ways: APP, Password, Fingerprint, NFC, Card or Key
- Mortise: 50, 60, 70 Single latch/ 85 Series/ 5050/ 72 Series
- Plate Size: L263×W39mm
- Color: Black / Satin Nickel
- Power Supply: 4pcs AA alkaline batteries
- USB Charging Port: Yes
- Door Thickness: 35~55mm

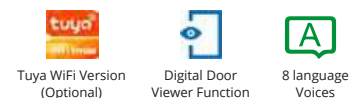

## MODEL F5

- Unlock Ways: APP, Face Recognition, Password, Fingerprint, Palm, NFC, Card or Key
- Material: Aluminum alloy
- Mortise: 6068 Anti-theft mortise
- Plate Size: L408×W80mm
- Color: Black / Silver / Red Bronzed / Gold
- Power Supply: 4000mAh lithium battery
- USB Charging Port: Yes
- Door Thickness: 45~90mm

## MODEL F8

- Material: Aluminum alloy
- Unlock Ways: App, Password, Fingerprint, NFC, Card or Key
- Mortise: 50, 60, 70 Single latch/ 85 Series/ 5050/ 72 Series
- Color: Black / Red Bronze
- Plate Size: L260×W63mm
- Power Supply: 4pcs AA alkaline batteries
- USB Charging Port: Yes
- Door Thickness: 35~55mm

# SMART KEY BOX

TTLock Version  
(Optional)

Tuya BLE Mesh  
Version (Optional)

Compatible with  
Amazon Alexa

Compatible with  
Google Home

## MODEL K3

Make access smart, simple & safe

### Introduction:

This smart key box is roomy enough to hold a key card, several house keys and a car key. A keyless experience without replacing your existing lock. Install in just a few minutes. Open Key box via PIN code or Bluetooth. Use App "Tuya or TTLOCK" to unlock, share access, and check the access records.

Zinc alloy body, strong and durable.  
Withstand fall within 1 meter.

Could be used for outdoor, working  
temperature ranges from -25°C ~ 55°C  
(-13°F~131°F).

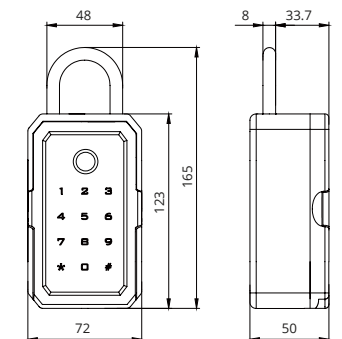

Min.10,000 times lock & unlock or  
lasts for 12 months.

### Parameter:

Material:	Zinc alloy
Plate Size:	L165×W72mm
Unlock Way:	App, Fingerprint, Password or Card
App Name:	TTLock APP or Tuya APP
Support System:	IOS7.0 or Android 4.4 or above
Power Supply:	4pcs AAA alkaline batteries
Color:	Black
Working Temperature:	-25~55 degree
USB Back Up Power:	Yes
Application:	Office, Apartment, Home, School
Applicable For:	Door Handle, Wall

### Specification: (Unit:mm)

### 4 Unlocking Ways:

# MODEL R5

Make access smart, simple & safe

## Security System

Smart security devices like Indoor Camera, Outdoor Camera, Contact Sensor, Water Leakage Sensor, etc. form comprehensive security system, making you feel safe and secure no matter how far you are from home.

# SMART ALARM SOLUTION

Place around windows, doors, and other areas where intrusions occur for confident security. The AX PRO detectors deliver precise indoor and outdoor detection and all-compassing protection, day and night.

○

The AX PRO system also helps make homes safer for families. It provides fire and water leakage detection before disaster strikes for superior security at every corner.

Powered by Hikvision's IVaaS technology, home- or business-owners can verify alarms by watching video clips or GIF imaging when they are away from the property, staying confident and informed.

Setup intelligent control in homes with a whole range of smart control devices, relays, outlets, and more. What's more, the AX PRO system is flexible and can be linked with other Hikvision devices, offering even more flexibility.

Premium wireless keypad with touch surface, dedicated buttons for partition control

### U-Prox Keypad G1

The wireless mini keypad is designed for arming and disarming one partition

### U-Prox PIR

Wireless pet immune motion detector

### U-Prox PIR Combi

Wireless pet immune motion and break glass detector

### U-Prox PIR Combi VB

Wireless motion and break glass detector with "vertical barrier" lens

### U-Prox Button

The wireless key fob / button designed to control the U-Prox security system.

### U-Prox Siren

Wireless indoor siren

### U-Prox PIR Outdoor

Wireless outdoor motion detector

### U-Prox WDC

Wireless magnetic door/window contact with external LED and reed switch connection

### U-Prox WDC long

Wireless magnetic door/window contact with wires for connecting the arming information LED and external reed switch.

### U-Prox Keyfob

The wireless key fob is designed to control the U-Prox security system

### U-Prox WDC mini

Wireless magnetic door/window contact

### U-Prox Smoke

Wireless optical smoke alarm

### U-Prox Water

Wireless water leak detector

### U-Prox Siren Outdoor

Wireless outdoor siren

## Smart Lighting

Smart LED bulbs contain software that connects to an app, smart home assistant, or other smart accessory so you can automate your lights or control them remotely, eliminating the need for traditional wall switches

# SMART LIGHTING SOLUTION

## RGB Wifi Smart Bulb

TYPE:TUYA Wifi Smart Light Bulb

Voltage:15W/18W

Color:RGB+Warm White+Cold White

Control: Tuya Smart Life/Alexa Amazon/Google Assistant.

## Color E26

A compact smart light that packs a serious 800 lumen punch. The LIFX Color features billions of colors as well as a huge cool-to-warm range of whites. And for anyone who loves an upgrade, take advantage of endless integration options.

## White E26

A compact smart light for quality illumination at your command. The LIFX White features energy efficient, dimmable LED lighting for the perfect home or work environment.

## Color Downlight

LIFX Downlight Color is an energy efficient lighting fixture that features 16 million vivid colors as well as dimmable warm to cool whites to meet your needs from dawn to dusk. The LIFX Downlight Color produces a staggering 800 lumens from just 9 watts, delivers advanced WiFi enabled control, and creates a modern flush-to-ceiling finish with its retrofit fixtures for a sophisticated home

**CUSTOM SMART NEON LED LIGHTING SOLUTION ON REQUEST**

### Full Autonomous Positioning and Navigation

The simultaneous localization and mapping (SLAM) system is developed independently by KEENON Robotics, which makes our robots work stably and efficiently. KEENON supports both marker and laser SLAM solutions for different indoor scenarios. Accuracy is also guaranteed with the latest binocular stereo vision obstacle avoidance.

### Multi-Robot Collaboration

With a powerful planning system, multiple robots can cooperate smoothly in the same working environment, elevating efficiency, reducing cost, improving the service level, and offering customers a more intelligent experience.

### SMART AND SAFE OBSTACLE AVOIDANCE

Multi-dimensional sensors such as depth vision, lidar, collision sensors, infrared distance measurement, and other multi-dimensional sensors have been researched and developed by Keenon for over ten years. We continuously optimize core algorithms to make robots avoid obstacles more flexibly and safely.

### FULLY AUTONOMOUS POSITIONING AND NAVIGATION

Relying on the SLAM synchronous positioning and map construction system independently developed by Keenon, the robots run stably and efficiently in various scenarios. Relying on a series of sensors such as encoders, gyroscopes, laser odometers, lidars, image modules, UWB, and multi-sensor fusion algorithms, the robots achieve the high-precision positioning and flexible movement.

### COOPERATIVE SCHEDULING SYSTEM

Through coordinating our self developed communication modules and distributed scheduling algorithms together, Keenon robots can achieve AI distributed scheduling, ensuring that multiple robots can work together and complete delivery tasks more safely and efficiently.

## Smart Switches

# SMART SWITCHES

Life Is On **CLIPSAL**  
by Schneider Electric

- Manage your lighting, blinds, shutters, split system aircon, appliances and more via an app, wherever you are.
- Create and schedule your own 'Moments', like movie nights or family dinners, where settings such as the lighting and temperature change to just how you like them.
- Set the lights and devices in your home office to power up with a pre-scheduled program before you start working, then go on standby when you're done.
- Let your home automatically anticipate your needs, reducing your living costs and environmental footprint.
- Choose how you control your smart home, with the Wiser by SE app, voice assistants or automatically.

Switch

Curtain switch

Freeloate

Tap **+** to add  
a new Moment

Tap **+** to add  
a new Automation

## Create personalised 'Moments'

Every household has its little rituals, and your Clipsal Wiser Smart Home can instantly set the mood for your special Moments. Whether it's turning off the TV and putting on some music at dinnertime or dimming the lights and closing the blinds for movie nights, just set the Moment exactly how you want it once, then call up your saved settings next time.

Moments are an easy way to save your favourite settings for lighting, shade, and temperature in any room, and even control appliances like your TV or home entertainment system.

## Imagine the power of 'Automation'

With the Automation feature, you can fully customise the behaviour of your Clipsal Wiser Smart Home to suit your needs and have your home react to particular events. After you define your conditions and actions, your Clipsal Wiser Smart Home will automatically activate if the conditions are met. Imagine being able to set an Automation to turn your hallway lights on from 7pm to 9.30pm each night at 80% light level when a movement sensor is triggered so you and your family can more safely walk through your home.

## A smart home that grows as your needs do

From one smart function to a complete smart home, your Clipsal Wiser Smart Home features all the capabilities you need to start your smart home journey. Plus it's easy to scale up and add new devices to. You can start off with one or two smart room functions, like living room lights and bedroom window blinds, and affordably add to the system throughout the house as your needs change.

## Key Features

- Full control over a wide selection of devices in your home.
- Group your smart devices into "Rooms" to simplify the control over your home.
- Device pairing and set up in the app.
- Convenient status overview of connected devices.
- Manage your smart home even when you aren't home.
- Combine Wiser device settings to create a room effect or adjust room comfort level using Moments.
- Set time-schedule based instructions to make your home respond to your everyday needs.
- Support remote firmware upgrade for the devices.
- Support voice control, works with Amazon Alexa, Google Assistant and Tmall Genie.
- Support push notification for critical information.

## Smart Curtain Solutions

Smart curtains are basically smart modules that are enabled with the help of internet connection. The digital curtains are accompanied with smart rods for easy and seamless motorization of the blinds or shades.

### Smart Curtain Motor

- APP Remote Control: Cool and fantastic tech design that makes your life so much easier with a simple clicking on your smart phone, which makes your home smarter.
- Voice control: Compatible with Amazon Alexa and for Google Home, you can turn on or off the curtain just by voice.
- Light Touch Start Function: If use hand to pull the curtain lightly, the curtain will run automatically and stop until fully opened or fully closed.
- Sound and Noise Reduction Design: It adopts sound insulation design to reduce noise, which makes the noise less than 38dB, enjoy comfortable and silent environment.
- Small Body, Interface Uniform: The interface of all electric curtains is the same, no need to worry about the interface is not compatible with.

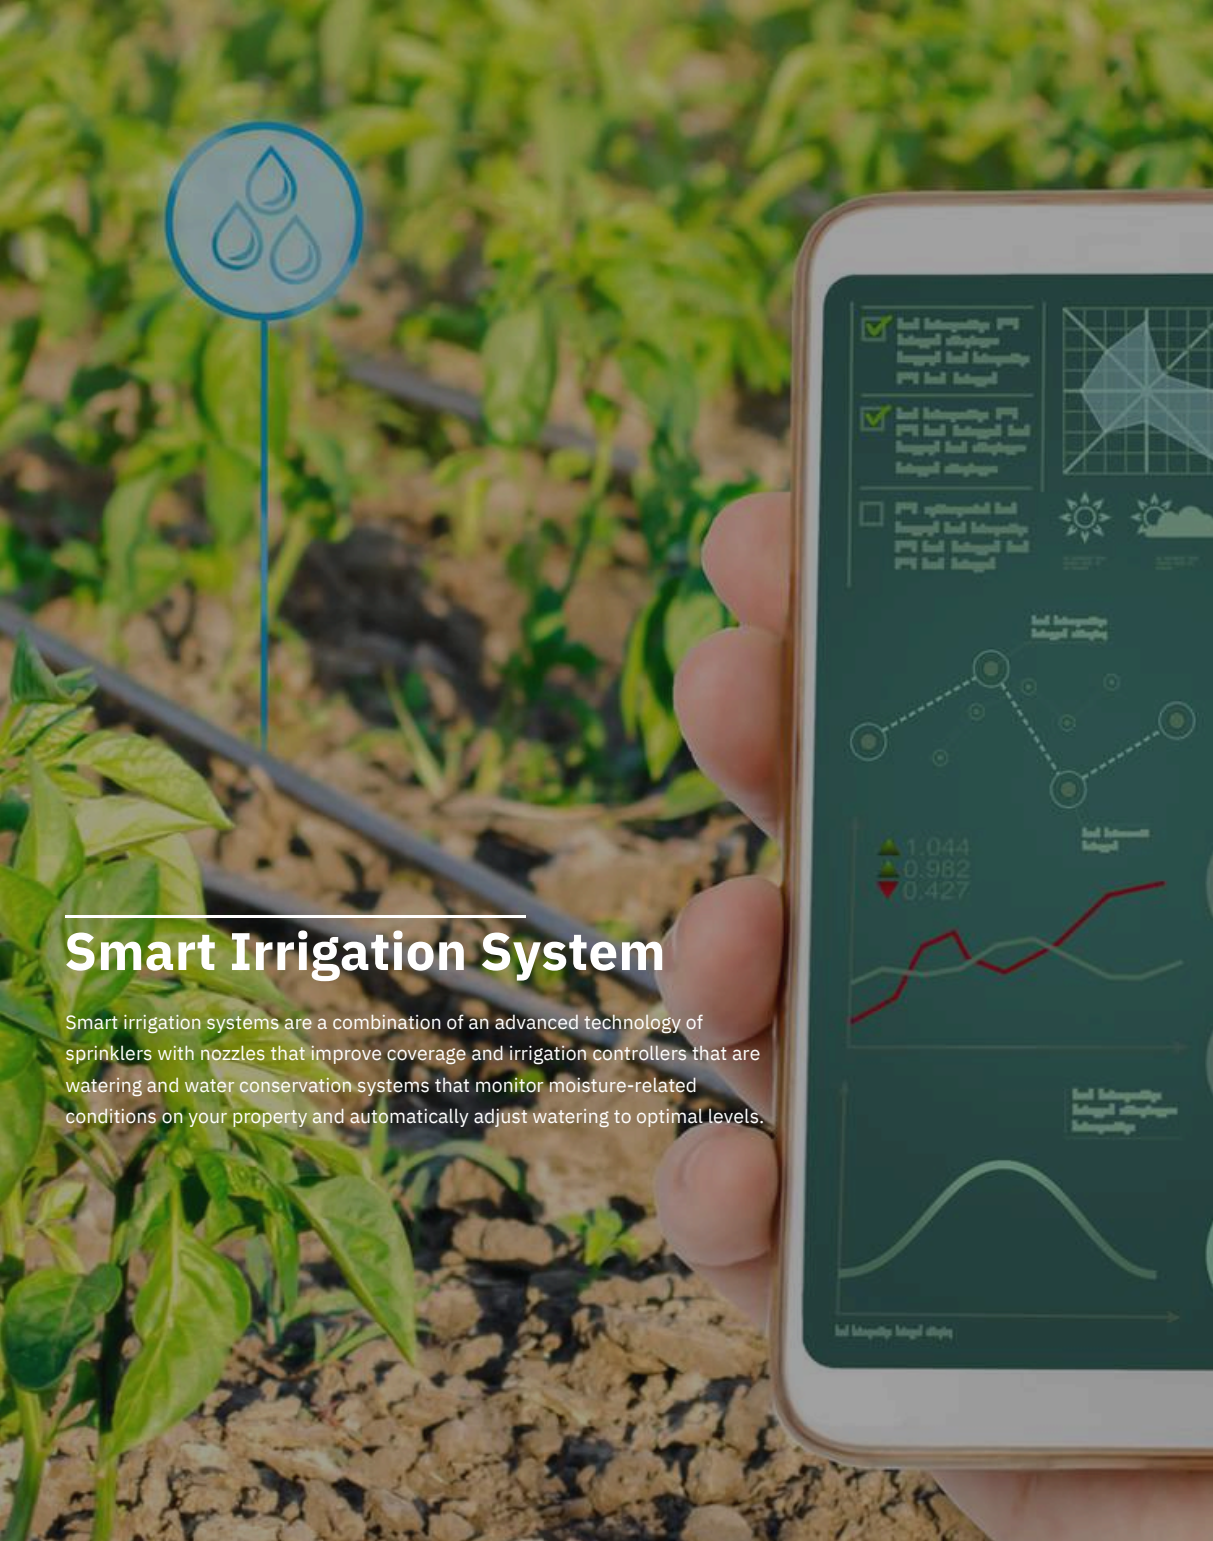

### End-End Curtain and Blind Solution

offers wide range of curtain and roller blinds fabrics at affordable prices. Great savings on end to end quality fabrics for your curtains.

Smart irrigation systems are a combination of an advanced technology of sprinklers with nozzles that improve coverage and irrigation controllers that are watering and water conservation systems that monitor moisture-related conditions on your property and automatically adjust watering to optimal levels.

Smart irrigation systems are a combination of an advanced technology of sprinklers with nozzles that improve coverage and irrigation controllers that are watering and water conservation systems that monitor moisture-related conditions on your property and automatically adjust watering to optimal levels.

## Smart Water Valve

1. Remote Control: You can control all the smart devices through your phone remotely, wherever and whenever you are.

2. Linkage Control: When you get up at night, the PIR motion detector detects you are moving, it can link the lights on to the brightness you like. "when you come, lights on; when you leave, lights off".

3. Scene Control: In the past, when you came back home, the first thing you need to do is turning on the lights, the AV, ect. But now you can edit a 'come home' scene, when you came back next time, all the devices will work automatically.

4. Timing Control: You have a store, you don't need to turn the light on when it gets dark, you can set a timer, the lights will be on /off at the time

## Smart Manipulator

- Support IEEE 802.15.4 (ZigBee/SmartRoom) protocol.
- Free from manual supervision or manipulation of gas valve, and realize highly smart and automatic home life.
- Manual calibration makes easy maintenance and accurate control.
- Precise in structure and workmanship, and guarantee gas tightness and security.
- Brand new in appearance and design, and make you feel more homelike.

# Smart Home Installation Service

At the time of installation, you'll have an opportunity to take advantage of Intune Smart Support. This unique program is designed to take the confusion out of your smart home. Not only will our team take care of the installation and initial setup, but we will also help you maintain your system so you can get the most enjoyment out of it.

Our team are ready to help you create a complete integrated system for your home. In providing you with our expert advice and professional recommendations, our goal is to deliver options that take into consideration any current needs, future trends, and product reliability factors. Before we begin, we'll take the time to understand your individual needs to deliver a customized solution. We offers a comprehensive set of services that address every aspect of your home automation requirements including

- Consultation
- Scoping
- Design
- Supply
- Project Management
- Installation / Works
- Inspection
- Technology Partnering
- Energy Savings Solutions
- Training and Development
- Support

## CONTACT US
